

## **Recommendations to be included in the Chair's summary under item 3 (a) entitled "Review of UNEP Programme of Work implementation"**

- a. *Requests* the Secretariat to identify challenges and explore opportunities to enhance sustainable finance for climate adaptation, for biodiversity action and the implementation of the KM-GBF and for pollution action.
  - b. *Requests* that the Secretariat strive to avoid duplication with other science policy processes such as IPCC and IPBES, IRP, the future panel whose establishment was called for in UNEA 5/8 and the subsidiary body of relevant MEAs, when developing the GEO-7.
  - c. *Welcomes* the proposed changes to strengthen delivery of the MTS through its programmes on Pollution and Health, Towards Zero Waste and Circularity in Sectors and requests the Secretariat to increase efforts on circularity, sustainable patterns of consumption and production and health with full respect of the mandates of UNEP and WHO.
  - d. *Reiterates* UNEA decision 6/7 that the new MTS is prepared through open, transparent and inclusive consultation with Member States and fully taking into account the views of Member States.
  - e. *Requests* the Secretariat to consistently include in all future iterations of the Programme Performance Report an overview of challenges, opportunities and lessons learned for all sub-programmes, management and financial matters. Lessons learnt should be strategic and analytic and relate to both context and partners, as well as to programmatic and institutional lessons as relevant for UNEP to improve its operations and performance.
  - f. *Requests* the Secretariat to present at a future CPR Subcommittee meeting changes it will make in the implementation of the PoW and Budget for the period 2024-2025 following the lessons learned and the inputs provided at the 11<sup>th</sup> ASC meeting.
  - g. *Recommends* the Secretariat to better integrate and link information on policy work, results, available financial resources and expenditures in future Program Performance Reports.
  - h. *Recommends* that the Secretariat briefs the CPR Subcommittee on geographical distribution and on an updated Gender Strategy, as well as on the implementation of the evaluation recommendations regarding gender.
  - i. *Requests* the Secretariat to accelerate action and increase ambition in restoring degraded lands, building drought resilience and promoting sustainable land management practices.
-
