Introduction

The UNEA Monitoring and Reporting Portal is a dedicated platform for **monitoring** and **reporting** of progress in the implementation of UNEA resolutions, decisions and declarations in the context of the Programme of Work

The Portal was developed in response to UNEA resolution 4/22, implementation and follow up of UNEA resolutions

UN environment programme

Why is the Portal Important?

Better Implementation and Results

- Use of Portal provides better coordination of implementation and follow-up of resolutions contributing to achievement of the environmental dimension of the SDGs.
- It promotes learning identified gaps, challenges and best practice for emulation.

Better Quality UNEA Decisions

- It provides a repository of information on what has been addressed to help prevent duplication of UNEA resolutions. Lessons and best practices of previous resolution can improve future mandates and processes.

Comprehensive View of UNEA Impact

- Secretariat Reporting alone does not give the full picture of impact of UNEA as Resolutions often identify actions for Member States and other actors.
- Voluntary reporting by Member States will help fill this picture.

Enhanced Transparency and Accountability

Voluntary Reporting Process

Member States who wish to voluntarily report are requested to designate reporting focal points to ensure proper validation of data using two options:

a) Providing details of the designated focal points through a Note Verbale to the UNEA Portal team at unea-monitoring-support@un.org with a copy to the Governance Affairs Office at unep-sgb@un.org . The Note Verbale should detail the focal point's name, email and role/designation in your delegation.

b) A designated reporting focal point may also register for reporting directly using the portal's registration form which requires them to upload a Note Verbale as proof of designation.

Way Forward

Share your feedback on how we can improve the portal.

Register your focal points for voluntary reporting on UNEA resolutions.

Use the Portal to monitor implementation of the UNEA resolutions

As you prepare for UNEA 7 use the portal for use the portal for data-driven decision-making.
