Canada
Denmark
Monaco
Netherlands
South Africa

**COMEBACKS**

Belize	Nepal
Cambodia	Pakistan
Czechia	Palau
Dominica	Saint Kitts & Nevis
Eswatini	Somalia
Gambia	Uganda
Madagascar	

UNEP's 2024 reports on the **Mid-term Status on SDG 6 Indicators** show that progress on water issues is off-track due to the triple planetary crisis of climate change, biodiversity loss, and pollution. Supported by the Environment Fund, the reports call for urgent investment in institutions, infrastructure, and innovation to improve water quality, resource management, and ecosystem protection.

\* Amounts based on pledges, to be confirmed at the time of payment including possible effect of exchange rate fluctuation  
 \*\* Based on percentage increase from previous year's contribution  
 \*\*\* full share as per the Environment Fund Voluntary Indicative Scale of Contributions (VISC)  
 USA does not participate in VISC and is not a member of any regional group. However, since USA attends Western Europe & Other Group meetings as an observer, their contributions are reported as part of the WEOG summary.
