GC DECISION 27/2 ON THE IMPLEMENTATION OF PARAGRAPH 88 H

Decides that the governing body will ensure the **active participation** of **all relevant stakeholders**, particularly those from **developing countries**, drawing on **best practices and models** from relevant **multilateral institutions** and will explore new **mechanisms** to promote **transparency** and the **effective engagement** of **civil society** in its work and that of its subsidiary bodies, *inter alia* by:

- Developing by 2014 a process for stakeholder accreditation and participation that builds on the existing rules of procedure and takes into account inclusive modalities of the Commission of Sustainable Development and other relevant United Nations bodies;
- Establishing by 2014 mechanisms and rules for stakeholders expert input and advice;
- Enhancing by 2014 working methods and processes for informed discussions and contributions by all relevant stakeholders towards the intergovernmental decision making process;

PRINCIPLES OF ENGAGEMENT

1. Right to full and effective participation in all activities including planning, agenda setting, decision and policy-making, implementation, and evaluation
2. Timely and easy access to all information and documents, including negotiating documents and proactively disseminate information
3. Full participation: access to all UNEP meetings, processes and bodies (including through the final stages of decision-making) at all levels; speaking rights in all meetings, as a rule; the right to submit documents
4. Right of self-organization, including selection of their respective representatives

LEVELS OF ENGAGEMENT

- Policy shaping
- Global political agenda setting
- UNEA agenda setting

Decision-making

- Policy deliberations leading to decision-making
- Transparency and access-to-information

Implementation

- Strategic partnerships for implementation of UNEP's policies
- Strategic partnerships for achieving sustainable development

Expert input and advice

MEANINGFUL PARTICIPATION IN THE UNEA

- Participation in Agenda Setting *and* Decision Making
- Access to all meetings of the UNEA and its subsidiary bodies, including the opportunity to intervene and to provide written inputs
- Timely access to draft decisions
- Transparency on how MGS input was addressed in decisions
- Use of all UN languages
- Major Groups and Stakeholder Fora before open ended CPR and UNEA, to allow MGS to coordinate positions and to prepare input

.... AND THE CPR

- Access to all meetings of the CPR, including in thematic debates for expert input and advice, informal consultations with the CPR, to achieve MGS engagement in agenda setting *and* decision shaping;
- Timely access to written documents, including drafts;
- Opportunity to intervene in debates and negotiations, submit written contributions/comments/recommendations

EXPERT INPUT AND ADVICE

Scientific input

- The International Resource Panel
- The Foresight Process
- The GEO process

Expert input opportunities:

- Environment and Social Safeguards
- Embedding Environmental Sustainability into SDGs/Post-2015

INCLUSIVE STAKEHOLDER APPROACH

- Effective, broad and balanced participation by region and by type of organization, through accreditation
- Expansion of the stakeholders from the nine Major Groups identified in Agenda 21 to other stakeholders, including those who are potentially affected by decisions/policies
- Creation of thematic groupings of relevant Major Groups to provide input

ENHANCED PARTICIPATION THROUGH ICT

- Use of modern information and communication technology to facilitate and broaden participation
 - webcasting of CPR and UNEA meetings
 - virtual participation
 - access to information platforms

A PREVIEW ON THEIR RECOMMENDATIONS (1)

- Committee on World Food Security as a good practice
- UNEP is not bound by the current nine Major Groups approach
- A new Environmental Civil Society Mechanism (ECSM) with increased powers of self-organization and with regional representation
- More involvement of social movements and citizens organisation (affected groups)
- Accreditation for national NGOs, government registration not required

A PREVIEW ON THEIR RECOMMENDATIONS (2)

- The ECSM would include representatives of some of the existing Major Groups system, but would not include business and industry, local governments, and science and technology, which would instead be included in a new and separate Advisory Body
- In UNEA, CPR, etc. the number of seats allocated to the ECSM to fill could vary depending on the function, within the three main areas of decision-making, agenda setting, and implementation. The Group considered a good model would be to allocate seats at a ratio of 1-5-1 (business – ECSM – local governments).

UNEP'S OPTIONS PAPER

- New inclusive accreditation criteria;
- Two types of consultative status to be granted to non-governmental observers;
- Participation in global environmental agenda setting; and in meetings of the Bureaus of UNEA and CPR, for agenda setting in UNEP;
- Participation in all meetings of the CPR;
- Thematic clusters for expert input and advice;
- Nine major groups plus approach or UNEP's identification of its own groups, versus a more open civil society approach;
- Stakeholders facilitating body;
- Funding mechanism.

CHRONOLOGICAL OVERVIEW

PROPOSED QUESTIONS FOR DISCUSSION

- What do you expect from the UNEA?
- What would be the priority topics you would like to address at the UNEA? And during the Multi-stakeholders dialogue?
- What are the limitations of UNEP's current system for stakeholder engagement, and what are proposed solutions?
- What form of stakeholder participation in the CPR can be envisaged?
- In line with "The Future We Want", should the current Nine (9) Major Groups approach applied by UNEP be revisited?
- Shall the new mechanism be designed in line with the standards set by the High Level Political Forum (HLPF)?
