

Annex II

DECISIONS ADOPTED BY THE AMCEN AT ITS EIGHTH SESSION

1. Main preamble

We, the African Ministers of Environment gathered in the city of Abuja, Nigeria, under the auspices of the African Ministerial Conference on the Environment,

Recalling the resolutions of the African Ministerial Conference on the Environment adopted in December 1985 and at other sessions of the Conference,

Aware of the evolution of global and regional environmental thinking and shifts in emphasis since the institutionalization of the Conference,

Recognizing the many initiatives taken by African countries in response to the changing environmental conditions,

Also Aware that accelerated growth is needed as a top priority in all our countries, but that economic growth is not sustainable without reducing the widespread poverty of our people and protecting the resource base needed for our future development, while improving the health, income and living conditions of the majority of our people is imperative for ensuring the political and social stability needed for economic and environmental sustainability,

Noting with concern the increase in the number of emergency and crisis situations in our countries as a result of global environmental changes with adverse effects on Africa, external factors being to a large degree the causes of these disasters, whereas the impacts on our region are increasing in adversity, frequency and scale,

Further aware of the important role of economic performance on the state of the environment and appreciative of the existence of African sub-regional and regional economic groupings, particularly the treaty establishing the African Economic Community,

Convinced that development which is not sustainable should no longer be called development,

2. Decisions

Decision 2: Global negotiations on the environment

Considering the importance of global negotiations and dialogue on the environment and the need for the Africa region to promote its environmental agenda in such negotiations and dialogue,

Recognizing the limited negotiating capacities in the Africa region as well as the difficulties encountered by representatives of the region in global environmental negotiations,

Recognizing also the need for the Africa region to approach global negotiation on the environment with clarity of purpose and common consensus, positions and perspectives,

Recognizing further the seriousness and magnitude of land degradation in the region resulting from desertification process,

Recognizing also the continuing loss of biological diversity,

Recognizing also that the adverse impacts of climate change pose serious threats to the development of African countries and that it is therefore necessary for Africa to play a key and active role at the sixth session of the Conference of the Parties to the United Nations Framework Convention on Climate Change, scheduled for November 2000,

Decision 3: Building strategic partnerships

Recognizing the important role that development partners, particularly in the UN system, civil society, including non-governmental organizations, women's groups and community-based organizations, the private sector and international donor countries can play in the implementation of the medium-term programme,

Recognizing also the need to maintain the five geographical subregions

(Eastern, West, North, southern and Central Africa) ,and the important role that African regional and subregional organizations can play in the implementation of the medium-term programme,

Recognizing further the important role that line ministries can play at the national level in the implementation of the decisions of the Conference;

Decide:

- a) To build, through consultations and joint programming, partnerships with the UN system, civil society, including non-governmental organizations, women's groups and community-based organizations, the private sector, donor countries and multilateral donor organizations;

Decision 4: New and emerging environmental matters

Recognizing the implications for the Africa region of the planned Earth Summit (2002)

Recognizing also the importance of the Global Ministerial Environment Forum which will be convened in Malmo, Sweden,

Aware of the serious and adverse impacts of natural disasters that are on the increase in the region,

Aware also of the serious and adverse impacts of civil conflicts on the environment as well as problems of refugees arising therefrom,

Decide:

- (a) To commend the UNEP for taking the necessary measures for convening the Global Ministerial Environment Forum which will bring together in Malmo, Sweden, from 29 to 31 May 2000, Environment Ministers from all over the world, and to applaud the Government of Sweden for hosting the Forum, considering that since the issues to be discussed at the forum are of crucial importance to Africa, it is important that Africa should be represented in full force in order to effectively bring to bear on the discussions Africa's perspectives on the agenda items;
- (b) To join hands with the OAU, the ECA, the ADB and the UNEP in carrying out necessary preparations for the development of a regional African common position in 2001 to be submitted to Earth Summit II (2002);
- (c) To establish a mechanism within the framework of the AMCEN which will serve as a vehicle for mobilizing actions for the purpose of comprehensive assessment of the impacts of disasters and civil conflicts on the environment, as well as environmental restoration measures.

Decision 5: Financial Resources

Recognizing the importance of having predictable and regular financial resources for the implementation of the decisions of the Conference as well as the medium-term programme,

Recognizing also the need for contributions to the Trust Fund of the Conference,

Recognizing further the financial support that the UNEP continues to provide to the Conference as well as the contributions made by some of the member States of the Conference,
