

IPEN Letter of Intent:

IPEN supports the goals and objectives of the Global Alliance to Eliminate Lead Paint. We encourage our Participating Organizations in countries where lead paint is manufactured, imported, sold and/or used to undertake national lead paint elimination activities and within available resources we provide interested organizations with policy and technical support for these activities and, to the extent we can, help them with resource mobilization. IPEN has also been in the forefront of efforts to test paints on the market in developing countries and countries with economies in transition for their lead content, and our Senior Policy Advisor has been an active participant in the GAELP Interim Advisory Committee.

Jack Weinberg  
IPEN Senior Policy Advisor

World Health  
Organization

## GLOBAL ALLIANCE TO ELIMINATE LEAD PAINT QUESTIONNAIRE FOR POTENTIAL CONTRIBUTORS

## GLOBAL ALLIANCE TO ELIMINATE LEAD PAINT QUESTIONNAIRE FOR POTENTIAL CONTRIBUTORS

<b>TYPE OF CONTRIBUTION</b>	In-kind (please describe below _____)

Please describe in the space below the activity that you would like recognized as a contribution. Wherever possible, please select which one of the descriptions from the list in the annex most closely aligns with your proposed contribution

Please provide below a short description of the activity that you would like to have recognized as a contribution

IPEN is a global network of 700 health and environmental NGOs in more than 100 countries.

- Lead paint elimination is a high priority for IPEN; we encourage and support our Participating Organizations in national lead paint elimination efforts as part of IPEN's global lead paint elimination campaign.
- IPEN's Senior Policy Advisor, Jack Weinberg, has been an active participant in the GAELP Interim Advisory Committee.
- Much of the current data on the lead content of paints on the market in developing countries and countries with economies in transition has been gathered by IPEN.
- The IPEN Asian Lead Paint Elimination Project – with generous support from the European Union – is undertaking an ambitious program of lead paint elimination activities in seven Asian countries: Bangladesh, India, Indonesia, Nepal, Philippines, Sri Lanka, and Thailand.

IPEN fully supports all of the GAELP goals and objectives.

My contribution most closely aligns with the work described in the annex section A, B, C, D, E and F (please select which ones that apply and give number of activity)

<b>PLEASE SIGN THE FORM BELOW</b>	
Name	Jack Weinberg
Signature	<i>Jack Weinberg</i>
Date	March 30, 2012

## ANNEX

### EXAMPLES OF ACTIVITIES THAT MAY DESCRIBE POSSIBLE CONTRIBUTIONS

<b>A</b>	<b>Health Aspects (including lead toxicity and human exposure, but excluding workers health)</b>	
x	A1	Exchange information on the effects of lead on health
X	A2	Exchange information on pathways of exposure to lead paint for children and adults
	A3	Provide technical expertise in the design and implementation of studies to estimate the distribution of levels of lead in blood in the populations of other nations
X	A4	Encourage nations to monitor health to estimate the prevalence of lead in human blood
	A5	Build capacity and sharing information to monitor health to estimate the prevalence of lead in human blood
	A6	Build capacity and providing training to develop and maintain high-quality laboratory testing for lead in blood
	A7	Assess the hazards of substitutes for lead compounds in paint
X	A8	Discuss and building capacity on how to reach health providers, caretakers and parents on how to minimize children's exposure to lead from lead paint hazards as part of efforts to minimize exposures to all sources of lead exposure in the household
X	A9	Exchange information to promote general public awareness of the hazards of lead paint
X	A10	Contributing to the activities that contribute to national, regional or global achievement of the work of the Global Alliance
<b>B</b>	<b>Environmental Aspects</b>	
X	B1	Encourage nations to conduct monitoring to estimate the prevalence of lead in the environment (for example, in water, soil and animals)
X	B2	Exchange information on lead levels in paints in various countries
	B3	Assess the hazards of substitutes for lead compounds in paint
	B4	Encourage nations to conduct housing surveys to estimate the prevalence of lead paint in their housing stock
X	B5	Develop guidelines with descriptions of simple analytical methods and test kits to identify lead paints
X	B6	Build capacity and providing information and knowledge in human and laboratory equipment to facilitate laboratory tests for lead paint
	B7	Exchange information on methods to make housing and other buildings with lead paint safe for occupancy by children and pregnant women
	B8	Minimize risks of previously applied lead paint in buildings by using effective containment
X	B9	Enhance the elimination of lead paint in schools and other buildings where children will be present, given children's susceptibility to lead
X	B10	Exchange information to promote general public awareness of the hazards of lead paint
X	B11	Exchange information on safe disposal of lead paint waste
	B12	Develop approaches to manage and store waste containing lead paints
X	B13	Contributing to the activities that contribute to national, regional or global achievement of the work of the Global Alliance
<b>C</b>	<b>Workers Health (including home-owners repairs)</b>	
	C1	Exchange information on safe methods to conduct repair or renovation activities on the interior and exterior of homes and other buildings that contain lead paint to minimize exposures to residents and workers and to minimize releases to the environment (including from wastes) that may contribute to future exposures
	C2	Discuss steps to teach renovators, painters and other professionals how to minimize children's exposure to lead from lead paint
X	C3	Exchange information on steps to warn workers of their vulnerability and exposure to lead in small-sized and medium-sized enterprises, in particular in developing countries
X	C4	Exchange information to promote general public awareness of the hazards of lead paint
X	C5	Contributing to the activities that contribute to national, regional or global achievement of the work of the Global Alliance

<b>D</b>	<b>Legislation and Regulation</b>	
X	D1	Exchange information on national, provincial, State and local regulations and legislation on lead concentrations in paints permitted in various countries
X	D2	Develop guidelines for establishing national standards, including those that would permit the use only of lead-free paints
X	D3	Encourage nations to require that only lead-free paint may be used in construction activities or renovations being supported with government funds
X	D4	Provide guidance for and information on effective enforcement of national standards, including on how to avoid smuggling of lead paint
	D5	Build the legal enforcement capacity of environmental health officers in ministries, local authorities and mines
X	D6	Provide international support to developing countries by devising further methods to enact comprehensive legislation to phase out lead paint completely
X	D7	Exchange information and providing international support to strengthen and harmonize existing national legislation that focuses on protecting public health in relation to the phase-out of lead paint
	D8	Build capacity and providing information and knowledge to help officials in a range of ministries to test for lead paint
X	D9	Exchange information to promote general public awareness of the hazards of lead paint
X	D10	Contributing to the activities that contribute to national, regional or global achievement of the work of the Global Alliance
<b>E</b>	<b>Outreach to industry (including informal sector and small and medium enterprises)</b>	
X	E1	Exchange information on labelling and certification systems with regard to the presence and concentrations of lead in paint
X	E2	Discuss and providing technical assistance on steps that could be taken to phase out lead from paints and surface coatings such as lacquers, veneers and powder coatings worldwide
	E3	Encourage the use of financial incentives to support the use of lead-free paints
X	E4	Share knowledge on the availability of substitutes to replace lead compounds in paints
X	E5	Assess the feasibility of the voluntary phase-out of the production of lead in paint in cooperation with business and industry, including at the (sub)regional level
X	E6	Encourage wholesalers and retailers to halt sales of lead paints
X	E7	Exchange information on suggestions for warning labels on new cans of paint alerting users to the health risks that could result if the surfaces being prepared for repainting contain lead paints
X	E8	Exchange information to promote general public awareness of the hazards of lead paint
X	E9	Contributing to the activities that contribute to national, regional or global achievement of the work of the Global Alliance
<b>F</b>	<b>National Contributors (including activities to champion the implementation of GAELP goals and objectives at national and local levels)</b>	
X	F1	Translate GAELP-related materials into national or local languages
X	F2	Disseminate GAELP-related materials nationally or locally
	F3	Establish a GAELP-related web site in national or local languages with links to the GAELP web site
X	F4	Test the lead content of paints sold or used nationally or locally and disseminate results
X	F5	Mobilize national or local support for lead paint elimination within civil society and/or the health professions
X	F6	Undertake communications activities aimed at raising public awareness about lead paint and its hazards and at promoting consumer avoidance of lead paints
X	F7	Provide information to national or local manufacturers of lead paints on how to efficiently reformulate their paints
X	F8	Contribute to the establishment of regional or national voluntary third-party paint certification and labeling programs
X	F9	Engage in policy dialogue to promote legislation or regulations to prohibit the manufacture, import, sale and use of lead paints
X	F10	Monitor compliance with national legislation, regulations or standards controlling the lead content of paints manufactured, imported, sold or used nationally and locally
