

WORLD OZONE DAY 2018 TRINIDAD AND TOBAGO

Trinidad and Tobago celebrated World Ozone Day with several activities in the month of September.

These included Mall Displays (Trincity Mall), Community Awareness (Port of Spain Community), and Media Releases. Activities for the month of September closed with Environmental Talks held at University of the West Indies Learning Resource Center on September 28 2018.

At all of the events participants were exposed to a variety of information through lectures and discussions; as well as were privy to numerous documents and other literature.

Some of the topics at the Talks included:

- Energy efficiency in the air conditioning and refrigeration sector,
- Refrigerant recovery and recycling,
- Professional certification in the air conditioning and refrigeration sector and
- Women in the air conditioning and refrigeration sector
