Convention for the Protection and Development of the Marine Environment of the Wider Caribbean Region

Template for national reporting on the Convention and its Protocols

For the year 20.....(Biennial Report from January 1 20xx through December 31)

Introduction

The Convention for the Protection and Development of the Marine Environment of the Wider Caribbean Region, known as the Cartagena Convention, is a legally binding regional agreement for the protection and development of the Wider Caribbean Region. The Convention focuses on land-based sources of pollution, dumping of wastes at sea, pollution from ships, biodiversity protection, and airborne pollution among other things. Within the Convention, three protocols have been developed to deal with these issues: the Oil Spills Protocol; the Specially Protected Areas & Wildlife Protocol (SPAW); and Land-Based Sources and Activities Protocol (LBS).

Consistent with the Parties' obligations under Article 4 of the Convention to cooperate, assist each other, and endeavour to harmonize their policies, as well as with reporting requirements under the Protocols, this questionnaire will be used to facilitate transmission of information from Parties to the Secretariat and the sharing of information on issues related to the implementation of the Convention and its Protocols. The questionnaire consists of two parts.

1. Part A requires the respondent to provide general information on the Party submitting the report, such as contact details and name of the officer submitting the report. It is important that all the relevant information be provided.
2. Part B requires the respondent to provide information on the measures taken by the party to implement relevant provisions of the Cartagena Convention and its Protocols and on the effectiveness of such measures in meeting the objectives of the Convention and its Protocols.

When information is not available, please indicate as necessary. Should you wish to provide any additional information, please do so by attaching it to the back of your report. All reports should be submitted to the Cartagena Convention Secretariat no later than three months prior to the next Intergovernmental Meeting. If you have any questions or require further assistance, please do not hesitate to contact:

Yes ()

No ()

If yes, please specify what concerns have developed for the other sources of LBS pollution in your country.

7. Does your country have any existing environmental pollution monitoring and assessment programmes as outlined in LBS Protocol Article VI?

Yes ()

No ()

In Preparation ()

If yes, please indicate what monitoring and assessment programs have developed reports for the following parameters;

- Frequency of monitoring:
- Number of locations:
- Parameters being monitored:

Provide a website or URL reference to link the response to the appropriate information that is maintained by your country.

Please provide detailed summaries of monitoring programmes in Annex 1.

If in preparation, please describe what is planned and the schedule for its completion.

If no, describe why not.

8. Has your country developed and adopted guidelines concerning environmental impact assessments (EIAs) or has your country generated EIAs consistent with the LBS Protocol, Article VII (2)?

Yes ()

No ()

In Preparation ()

If yes, please describe how often do you review and update those guidelines.

If in preparation, please describe what is planned and the schedule for its completion.

Provide a website or URL reference to link the response to the appropriate information that is maintained by your country.

If no, describe why not.

9. Does your country have a total annual estimate of the pollutant loads to the marine environment for LBS activities?

Yes ()

No ()

In Preparation ()

If yes, please provide details of these loadings in Annex 2.

If in preparation, please describe what is planned and the schedule for its completion.

If no, describe why not.

10. Has your country experienced any difficulties in the implementation of the LBS protocol?
