

## Ecuador - section II initial proposals

### Section II, point 1:

- Catalyzes efforts at all levels to further the implementation of international environmental law and environment-related instruments, including through accelerating **and increasing** the **provision and** mobilization of the necessary means of implementation consistent with the Addis Ababa Action Agenda, **particularly towards developing countries.**

### Section II, point 2:

- Promotes **the further work on** principles of international environmental law with a view to strengthening the implementation of international environmental law and environment-related instruments
