LEAD POISONING PREVENTION WEEK OF ACTION, 26-31 Oct 2015

RESULTS of tests:

- By the end of september 2015, 130 samples of different general use products were tested on lead and all were in compliance with the legislation in place.
- During the *Lead Poisoning Prevention Week of Action*, Oct 2015, Republic Inspectorate has randomly chosen and tested 30 different products (mainly toys and dishes, as well as lip gloss and cosmetics for childre) and all were in compliance with the legislation in place.
