

National plan for ocean-related SDG14

Responsible organizations

- Ministry of Natural Resources and Environment
 - Department of Marine and Coastal resources
 - Pollution Control Department

- GRISTDA

- Ministry of Transport
 - Department of Port

SDG14.1 : Prevent and significantly reduce marine pollution of all kinds

- Indicator: Environmental Quality Control Plan 2017 – 2021
 - : Pollution Control Plan 2017 – 2021
 - : National Environmental Protection and Promotion Policy and Planning 2017 - 2036

Marine plastic litter management Roadmap from 2018 – 2030

SDG14.1.1 : Eutrophication Index Annual Marine Environmental Monitoring Project

: Marine plastic litter density Marine litter Floating Survey

Marine litter and its effect to ecosystem and marine endangered species Project under DMCR mandate

Measures to reduce marine litter at selected area Project under DMCR mandate

Development of geographic information system in water quality monitoring

Solid waste and Wastewater Collected from marine vessels

SDG 14.2 Sustainably manage and protect marine and coastal ecosystems to avoid significant adverse impacts

- Increase the marine protected area (15.68 % at the present)
- Legislation enforcement under Marine and Coastal Management Act B.E. 2560 (2017)

SDG 14.5 conserve at least 10 per cent of coastal and marine areas

SDG 14.5.1 *Coverage of protected areas in relation to marine areas*

4.73% protected area at the present:

4 marine national park

20 marine and coastal protection area

3 environmental protection area

are under the declaration processes
