Major recommendation		
It's true the facilitation is not a job. Very well because I am always in my world service. I recommend UN-Environment to provide me with innovative technological materials-with the high flow Internet. I ensure you, yes I can work- but you must answer at my request.		
Best regards!		
N.B :		
My report is only narrative because I received no financing since August to December		
Happy New Year 2021		
		
Onwards nonstop and for ever
