MEDITERRANEAN ACTION PLAN

Meeting of MAP National Focal Points

Athens, 6-9 September 1999

DRAFT REFERENCE LIST OF SPECIES FOR THE SELECTION OF SITES TO BE INCLUDED IN THE NATIONAL INVENTORIES OF NATURAL SITES OF CONSERVATION INTEREST

FOREWORD

Section 2.1 of the Mediterranean Action Plan - Phase II and Articles 3.3 and 15 of the Protocol concerning Specially Protected Areas and Biological Diversity in the Mediterranean contain provisions for the preparation of inventories of the elements of biological diversity important for its conservation and sustainable use. MAP Phase II also provides for such inventories to be prepared according to common criteria jointly established by the Contracting Parties.

In this framework, the Regional Activity Centre for Specially Protected Areas (RAC/SPA) was invited by the Extraordinary Meeting of the Contracting Parties held in Montpellier, 1-4 July 1996, to prepare common criteria and guidelines for the preparation of inventories.

Within the fulfilment of this mandate, RAC/SPA convened a Meeting of experts on criteria for the preparation of inventories of the elements of biological diversity in the Mediterranean region (Athens, 8-10 September 1997). The meeting finalized criteria for the preparation of national inventories of natural sites of conservation interest. To guide the identification of sites to be inventoried, the criteria provide inter alia for the establishment of a reference list of species. The criteria also indicate that the list should take into account Annexes II and III of the Protocol concerning Specially Protected Areas and Biological Diversity in the Mediterranean.

The criteria were subsequently adopted by the Tenth Ordinary Meeting of the Contracting Parties to the Barcelona Convention (Tunis, 18-21 November 1997). At the same meeting the Contracting Parties invited RAC/SPA to work on the elaboration of the reference list of species. They also decided that the list will be finalized at the level of the meeting of the National Focal Points for SPA and adopted at the level of the Meeting of the Contracting Parties (Doc. UNEP(OCA)/MED IG.11/10, Annex IV).

With a view to elaborating a working proposal, RAC/SPA requested guidance from the Contracting Parties through the National Focal Points for SPA. On the basis of the received replies, RAC/SPA elaborated a draft list, which was submitted to the Fourth Meeting of the National Focal Points for SPA (Tunis, 12-14 April 1999).

The present document includes the draft list as it has been finalized by the 4th Meeting of the National Focal Points for SPA. It is submitted to the present Meeting of the MAP National Focal Points, with a view to being transmitted to the 11th Ordinary Meeting of the Contracting Parties for adoption.

DRAFT REFERENCE LIST OF SPECIES FOR THE SELECTION OF SITES TO BE INCLUDED IN THE NATIONAL INVENTORIES OF NATURAL SITES OF CONSERVATION INTEREST*
