UNEP environment programme

QUARTERLY REPORT

to the 147th Meeting of the

COMMITTEE OF PERMANENT REPRESENTATIVES

FIFTH ISSUE – JULY TO SEPTEMBER 2019

FOREWORD

As this Report outlines, the period from July to September has been a busy but fulfilling quarter where we have made important progress on several milestones and contributed substantively to important deliberations such as the High-Level Political Forum in New York, the 18th Conference of the Parties (COP) to the Convention of International Trade in Endangered Species of Fauna and Flora (CITES) in Geneva and the 14th United Nations Convention to Combat Desertification (UNCCD) COP in India.

At the High-Level Political Forum, a sense of urgency prevailed across the board. As the climate crisis looms large, the Forum laid bare that we are not making sufficient progress on the Sustainable Development Goals (SDGs). UNEP contributed to a number of important deliberations on an inclusive green economy, Forum on Small States, and the high-level panel of the United Nations Economic and Social Council (ECOSOC) on transforming the SDGs. I see a clear role for us to ramp up the science and partnerships required to help discard the idea that our economies can continue to be at such odds from the environment and support economic actors in making the transition to a zero-carbon future.

We made remarkable progress at the CITES COP, a critical convention regulating trade in 36,000 species. The largest ever agenda points to the importance Member States afford to this Convention, and even as some Parties may not be satisfied with how this Convention supports their specific positions, the wildlife crisis is too big and too interconnected for nations to tackle alone.

However, while environmental multilateral agreements are critical to protecting people and planet, but we cannot ensure a life for dignity for all if we cannot guarantee a healthy environment. I was privileged to sign an agreement with Michele Bachelet, UN High Commissioner for Human Rights to strengthen our cooperation on environmental and human rights.

During this quarter, we also significantly stepped up momentum on nature-based solutions as we move within striking distance of the UN Climate Action Summit. Investing in nature's infrastructure means investing in people, livelihoods and resilience and this was evident in our contributions to the Abu Dhabi preparatory summit and across other initiatives. This message was also highlighted at the UNCCD COP 14 in India where 9,000 participants gathered, to discuss how land degradation neutrality is a powerful tool for climate action.

The Portal : Reports

The screenshot shows a web browser window with the URL https://staging1.unep.org/unea_monitoring/app/dist/viewreport/48. The page features a blue header with the text "Did You Know?". Below the header is the UNEA logo and the text "Monitoring & Reporting Portal". In the top right corner, the user "sridwan" is logged in, with a "Log Out" link. The main navigation menu includes "Outcomes", "PoW", and "Reports", with "Reports" highlighted in a red box. A green button labeled "Generate PDF" is positioned below the navigation menu. The report content is displayed in a dark grey box, showing the title "Outcome Title: Resolution UNEP/EA.4/RES.13: Sustainable coral reefs management" and the generation date "Generated On: 2020/10/15". Below this, the "Reporting Period" is listed as "Dec-2019". The "Summary" section begins with the text: "The resolution notes the critical importance of coral reef ecosystems in supporting the livelihoods of hundreds of millions of people through ecosystem services related to food security, shoreline protection, and medicinal resources among others. It also notes and recognizes the various international policy frameworks, initiatives and documents that highlight the importance of coral reefs globally, including General Assembly resolution 65/150, previous UNEA resolution 2/12, the UN Conference on Sustainable Development, the Aichi Biodiversity Targets, the 2015 UN Sustainable Development Summit, the Coral
