Date: 10th December, 2020

Dear Sir/Madam,

APPLICATION BY SUSTAINABLE ALLUVIAL MINING SERVICES TO THE UNEP GLOBAL MERCURY PARTNERSHIP.

On behalf of the Sustainable Alluvial Mining Services, we are pleased to convey our support for the Global Mercury Partnership (GMP) under the United Nations Environment Programme (UNEP) and its commitment to addressing this Global concern on the reduction and eventual elimination of Mercury.

The Sustainable Alluvial Mining Services is a Non-Profit Organization providing advocacy and technical assistance in mercury and all aspects of ASGM to mining communities and clients of the mining industry in PNG and abroad. We have also developed course material on Mercury and has been conducting Awareness and Training programs to artisanal and small scale mining (ASSM) communities throughout the country.

The programs conducted include knowledge and skills training on the dangers of mercury to human health and the environment, safe mercury handling practices, alternative local retorting techniques and appropriate disposal methods including business models in reducing mercury in ASGM.

Partnering in the Global Mercury Partnership program is valuable and the right step forward to working collaboratively with other global partners to enhance our activities to meet internationally recognized standards and also to share our expertise for the purpose of achieving the UNEP GMP's goals.

Finally, we would like to extend our appreciation towards UNEP's commitment and dedication through its various activities to reducing mercury and we look forward to working together with UNEP and other Inter-Governmental Organizations

Yours sincerely,

IMMACULATE JAVIA
Founding Director

PARTNERSHIP AREAS

Please check the partnership area(s) to which your organization intends to contribute to:

- Artisanal and small-scale gold mining
- Mercury cell chlor-alkali production
- Mercury air transport and fate research
- Mercury in products
- Mercury releases from coal combustion
- Mercury waste management
- Mercury supply and storage
- Mercury releases from the cement industry

> Please specify in your support letter how your organization intends to contribute to each of the selected partnership area(s).

ORGANIZATION APPLYING TO BECOME A PARTNER

Name of Organization: Sustainable Alluvial Mining Services

Type of Organization:

- Government
- Intergovernmental Organization
- Non-governmental Organization
- Industry
- Academia
- Other, please specify
