

WORLD OZONE DAY 2021 UZBEKISTAN

In Uzbekistan, the awareness-raising campaign devoted to the World Ozone Day was organized by UNDP and the State Committee of the Republic of Uzbekistan for Ecology and Environmental Protection.

The campaign expanded its scope of activities and improved networking with partner institutions such as the Ministry for Support of Mahalla and Family, Ministry of Public Education, Center of Women Inventors of Uzbekistan and representatives of HCFC re-use center.

The celebration scope covered several activities amongst which:

- Award ceremony of the four winners of the contest "The best Startup project" among women and girls for gender mainstreaming in Refrigeration and air-conditioning (RAC) sector;
- Announcement of winners of the knowledge contest among women and men in RAC sector;
- Masterclass from woman technician on refrigeration equipment diagnostics;
- Lessons on importance of the Ozone layer at 1984 schools in all regions of Uzbekistan with participation of 57,409 pupils including 29,462 girls (51%).

The media coverage of the campaign made 42 posts and publication in total.
