Governance Mechanism for the Implementation of the Ecosystem Approach in the Mediterranean

EcAp governance structure

The EcAp Coordination Group (EcAp CG) consisting of MAP Focal Points integrates and gives guidance to the work under the Barcelona Convention:

a) On the delivery of the ecosystem approach, making sure that all elements for its implementation are taken into account, weighting of priorities and resource implications; and

b) Coordinating Barcelona Convention/UNEP-MAP's facilitation role, in support of Contracting Parties in their implementation of EcAp.

Two Correspondence Groups are formed in the process of application of EcAp in the Mediterranean and to support EcAp Coordination Group:

1. The Correspondence Group on Monitoring (**COR MON**) composed of national experts designated by the Contracting Parties, and coordinated by Barcelona Convention/UNEP-MAP Coordinating Unit and MED POL, working to ensure efficient coverage and in-depth discussions and analysis regarding integrated monitoring and assessment.

2. The Correspondence Group on Economic and Social Analysis (COR ESA) is composed of national experts designated by the Contracting Parties and invited experts, and coordinated by Barcelona Convention/UNEP-MAP Coordinating Unit and PB/RAC. It develops a socioeconomic analysis of marine ecosystems uses, focusing on priority sectors such as fisheries, aquaculture, maritime transport, recreational activities, and oil industry and offshore and address as appropriate the socioeconomic aspects related to the formulation and implementation of programmes of measures to achieve/maintain good environmental status (GES)

3. Informal Online Working Groups (OWG) composed of experts and scientists nominated by the Contracting Parties and experts mobilised by the Secretariat and MAP Components. The composition should be restricted in number, with well-balanced geographical representation. The agenda of the Informal OWG and the timeline for their operationality is defined by the respective CORMONs. The Informal OWG report to CORMON and do not replace CORMONs.

4. Every effort to be made by the Secretariat to streamline and ensure the technical documents are cleared by the respective CORMON and MAP Component/Thematic Focal Points in line with their mandates, as appropriate, before they are submitted to the decision-making bodies. To this aim, the EcAp Coordination Group may decide on terms of references including potential list/type of documents for the technical bodies addressing also the need for the effective interaction among different bodies.

5. Science-Policy Interface (SPI). Every effort should be made to promote SPI for IMAP implementation in the Mediterranean.

- Work together to integrate the respective protocols for incidental bycatch monitoring and data collection on vulnerable species consistent with the methodology to be used by the Contracting Parties to the Barcelona Convention and the GFCM to monitor and collect bycatch data. Furthermore, expand this collaboration to bycatch data reporting by the Contracting Parties by ensuring interlinkages between IMAP and GFCM reporting information systems;
- Collaborate in order to identify, promote and strengthen synergies in spatial-based protection and management measures for marine biodiversity;
- Promote the establishment and sound management of fishery reserves and no-take-zones as effective management tools to restore marine ecosystems, fish biomass and community structure in areas depleted by overfishing and other marine areas;
- Collaborate in the formulation/development and implementation of key regional strategies to integrate the environment in social and economic development, especially in relation to fisheries and aquaculture in light of respective instruments in place.

2. Mitigating the impact of fisheries, aquaculture activities and NIS on the marine habitats and species

- Collaborate in the elaboration and implementation, including extra-budgetary fundraising, of joint regional and sub-regional projects on the evaluation and mitigation of by-catch of endangered and non-target species and of the impact of fishing gears on marine habitats;
- Consider initiatives to develop and implement marine spatial planning in a manner that takes into account fisheries and aquaculture activities, activities for the preservation of marine habitats and associated species (including tools such as MPAs and FRAs), and possible conflicts as well as positive interactions between these activities and other uses of the sea (e.g. shipping, marine renewable energies, mining, oil rigs, etc.);
- Exchange data and information on NIS and their impact on biodiversity and living resources, and on deep sea habitats in order to further enhance knowledge of these habitats, their biodiversity and their living resources for better management purposes;
- Collaborate in initiatives that raise awareness and mitigate major impacts such as those related to reduce the amount of ghost fishing gear as marine litter;
- Exchange information on additional species to be included within the Annexes II and III of the SPA/BD Protocol and GFCM decisions and recommendations relative to their vulnerability to bycatch;
- Collaborate, as requested by Contracting Parties, towards the effective implementation of the Mediterranean Strategy on Ships' Ballast Water Management, including its Action Plan and Timetable, and the 2011 Guidelines for the control and management of ships' biofouling to minimize the transfer of invasive aquatic species (Biofouling Guidelines) (resolution

MEPC.207(62)) in the Mediterranean region;

3. Identification, protection and management of ecologically or biologically significant marine areas (EBSAs), other marine areas of particular importance (i.e. SPAMIs, hot spots of biodiversity, areas with sensitive habitats, essential fish habitats, areas of importance for fisheries and/or for the conservation of endangered species, coastal wetlands)

- Enhance collaboration with other relevant organizations to maintain and update regional databases of sites of particular importance for biodiversity conservation and for fisheries management, including in a way which is complementary and coherent with the existing relevant UNEP/MAP databases;
- With regard to the Specially Protected Areas of Mediterranean Importance (SPAMIs) and the Fisheries Restricted Areas (FRAs), in particular those located partially or wholly in the Areas Beyond National Jurisdiction (ABNJ), collaborate to harmonize existing respective criteria to identify those areas, for the cases where their location may be coincident and the selection of mechanisms needed for their establishment;
- Consult and coordinate with each other, and involve to the maximum extent possible the IMO, on the possible identification and designation of Particular Sensitive Sea Areas (PSSAs) in relation to Specially Protected Areas of Mediterranean Importance (SPAMIs) and Fisheries Restricted Areas (FRAs), also exploring the use of PSSA mechanisms to provide protection to fisheries which have significant social and economic attributes;
- Monitor the status of the species listed in Annexes II and III to the Protocol concerning Specially Protected Areas and Biological Diversity in the Mediterranean and ensure that exploitation of all species included in Annex III is regulated to the maximum extent possible, consistent with Article 12, paragraph 4 of the SPA/BD Protocol;

5. Cooperation in relation to Marine Litter

- Collaborate for the implementation of the Marine Litter Management Regional Plan in the Mediterranean, with a particular focus on:

- supporting the implementation of fishing for litter schemes aiming at raising fishermen awareness about the negative impacts of inappropriate disposal and encourage them to take waste to port, including marine litter collected as by-catch;
- undertaking sub-regional pilots to test the implementation of the FAO Voluntary Guidelines on the Marking of Fishing Gear (e.g. joint scheme with the FfL Pilots); and
- updating the 2016 UNEP/MAP Fishing-for-litter Guidelines and to distribute and disseminate them to all fisheries/fishermen associations;

Common Operational Principles for MAP Components

Common Operational Principles for MAP Components

Common Operational Principles covering common provisions 1, 2 and 3¹

Regional Activity Centres (RACs) RACs will deliver their regional mandate as per COP16 Decision IG. 19/5 “*Mandates of the Components of MAP*” pursuant to the Barcelona Convention and its Protocols and related decisions of the Meeting of the Contracting Parties to the Barcelona Convention and its Protocols.

RACs can be hosted by Contracting Parties in the form of different entities, including international, governmental and non-governmental entities at national, regional or global level. Their legal status can vary from RAC to RAC, including having the status of public entities, depending on their constitutive instrument. RACs should have the necessary functional and financial autonomy in meeting their regional mandate as defined in COP16 Decision IG.19/5 “*Mandates of the Components of MAP*”.

Common Operational Principles covering common provisions 4 and 5²

RACs are expected to have appropriate and differentiated financial management mechanisms in place to manage their different sources of funding, including contributions from the Host Country Governments, transfers from the Mediterranean Trust Fund (MTF) as agreed by the Meetings of the Contracting Parties to the Barcelona Convention and its Protocols, voluntary contributions from Contracting Parties to the Barcelona Convention and project funding from donors. RACs will submit financial and progress reports to UNEP/MAP following the UNEP/MAP formats for this purpose under the relevant legal instruments signed between UNEP and the RACs for the transfer of financial resources. RACs may report to UNEP/MAP of the contributions received from the Host Country Governments. RACs are responsible for reporting to donors with whom projects are in place under the relevant legal agreements and for informing UNEP/MAP accordingly.

Host Country Governments should make appropriate provisions for operating and recurrent costs of the RACs (financial and in-kind). The responsibility of the Host Country Governments in providing

¹ Common provisions 1, 2 and 3 as agreed by COP 21 in Decision IG. 24/2, Annex IX, are:

- (2) **Purpose for entering into the HCA:** The potential HCA text would set out the terms and conditions under which RACs will deliver their regional mandate pursuant to the Barcelona Convention and its Protocols and related decisions of the Meeting of the Contracting Parties to the Barcelona Convention and its Protocols.
- (3) **Regional Role of RACs:** The potential HCA text would set out the regional role for the relevant RAC as per COP 16 Decision IG.19/5 on the Mandates of the Components of MAP.

² Common provisions 4 and 5 as agreed by COP 21 in Decision IG. 24/2, Annex IX, are:

- (4) **Financial Resources:**
 - The potential HCA text would make provisions establishing the separate management and accounting of Mediterranean Trust Fund (MTF) transfers and would refer to the requested reporting and audit requirements in line with Project Cooperation Agreements or any other legal instruments signed between UNEP and RACs for the transfer of financial resources.
 - The potential HCA text would describe the source of funding including the contribution of the Host Country Government.
 - The share of MTF transfers to RACs is a decision which rests with the COP.
- (5) **Contribution of the Host Country Government:** The potential HCA text would address the contribution of the Host Country Government (financial and in-kind), including specification whether the RAC premises are provided at no cost.

RAC premises at no cost to the MAP system, with the exception as necessary of a nominal fee, should be spelled out.

Property, funds and assets transferred to the RACs via the relevant legal instruments signed between UNEP and RACs will be subject to the requirements established by these legal instruments.

Common Operational Principles covering common provision 6³

RACs should have an organizational structure appropriate for the fulfilment of their regional mandate under COP16 Decision IG. 19/5 “*Mandates of the Components of MAP*”. RAC personnel, including the Director, has a category different from UN Officials as defined by the General Assembly, in Resolution 76(I) of 7 December 1946, exception made of REMPEC personnel, where applicable. RAC personnel will be selected and hired by the RAC Director/entity hosting the RAC in accordance with the applicable national rules and procedures and based on approved Terms of Reference (ToRs) elaborated nationally with the involvement of the Coordinating Unit, as appropriate. The RAC Director will be appointed by the Host Country Government or any other competent authority, with the UNEP/MAP Secretariat being involved in this process, as appropriate.

Common Operational Principles covering common provision 7⁴

Meetings and Conferences convened by RACs should be in accordance with the relevant national rules and procedures of the RACs/entities hosting the RACs, with the exception of the MAP Components/Thematic Focal Points Meetings which will be organized in line with applicable UNEP/MAP practices, procedures and working methods.

Common Operational Principles covering common provision 8⁵

RACs are expected to develop and maintain collaboration with other institutions and entities, within the Mediterranean region and beyond. Development of legal instruments such as MOUs on such collaboration should be done, in line with existing UNEP/MAP rules and policies, and/or with the existing rules and policies of the Host Country Government and in a transparent and collaborative manner.

Common Operational Principles covering common provision 9⁶

³ Common provision 6 as agreed by COP 21 in Decision IG. 24/2, Annex IX, reads as follows:

(6) **Personnel of RACs, including the Director:** Establishing a special regime taking elements of the General Convention for the personnel of RACs, including the Director does not seem to be an option, unless, as in the view of a Host Country Government, RACs are accorded the status of international or intergovernmental entities and to the extent permissible under national laws.

⁴ Common provision 7 as agreed by COP 21 in Decision IG. 24/2, Annex IX, reads as follows:

(7) **Meetings and Conferences convened by RACs:** Rendering equivalent privileges and immunities to representatives of the Contracting Parties to the Barcelona Convention participating in meetings convened by RACs is not a viable option unless, as in the view of a Host Country Government, RACs are accorded the status of international or intergovernmental entities and to the extent permissible under national laws.

⁵ Common provision 8 as agreed by COP 21 in Decision IG. 24/2, Annex IX, reads as follows:

(8) **Memoranda of Understanding (MOUs):** It seems that including standard procedures and criteria dealing with the conclusion of MOUs in the potential HCAs is not advisable.

⁶ Common provision 9 as agreed by COP 21 in Decision IG. 24/2, Annex IX, reads as follows:

(9) **Final Standard Clauses:** The potential HCA text would address the Settlement of Disputes/Entry into Force/Duration/Amendment provisions

The potential HCA text would address the Settlement of Disputes/Entry into Force/Duration/Amendment provisions in line with the relevant UNEP template.
