

**DRAFT INTERVENTION  
DELEGATION OF INDONESIA  
UNEP CPR SUB COMMITTEE MEETING  
24 MARCH 2022**

---

Madam Chair,

Thank you for the opportunity given to our delegation.

We thank the Secretariat for preparing a revised draft, taking into account the inputs provided by Member States during the previous meeting.

From our perspective, the current draft is more focused, more streamlined, and better reflect the outcome of UNEA 5.2 and UNEP@50 in a balanced manner.

In general, we can support the draft text as UNEA's contribution to HLPF.

To further sharpen the draft text, we would like to suggest two proposed amendments as follows:

- First, in Page 4, item (e) first bullet point, we would suggest replacing “triple planetary crisis” with “interlinked environmental challenges”
- Second, also in Page 4, we would suggest deletion of the fourth bullet point.
  - We are of the view that the content of that bullet point is already included in the first bullet point.
  - Furthermore, as we have emphasized in the previous meeting, it is imperative to reflect equal importance to all outcome documents, and avoid projecting an impression that some resolutions are more prominent than others.

Madam Chair,

That would be our initial contribution to this discussion.

We may come back with further suggestion after listening to comments from other delegations.

I thank you.
