THE CITY

Punta del Este is a city located on the Atlantic Coast of Uruguay, in the Maldonado Department. Its conurbation (Punta del Este+Maldonado) has a year-round population of about 135,000, but such number can easily reach to almost half a million people during summer season peaks. Located just 130 kilometers from Montevideo, it is the most popular resort and has the biggest hotel and touristic infrastructure in the country. Near the centre, at each side of the peninsula, you will find the two most famous beaches -Playa Mansa (calm beach) and Playa Brava (turbulent beach). Both feature promenades, where you can usually spot people exercising, cycling and rollerblading at all hours.

The micro-region has a humid subtropical climate, with pleasant summers (December to February) and cool winters (June to September). It never gets extremely hot, as the ocean generates a tempering effect on the temperature. During November and December, you are most likely to experience good weather daily, meaning temperatures range between 18 and 20oC (64-68oF). Rainfall is usually scattered during spring, with the possibility of sudden and intense events; but it gets all recompensated as you may witness the rebirth of flowers and the colorful revival of gardens and squares.

A good number of museums and galleries can be found in the city, each of them with its own appeal. The majestic "Casapueblo", is a masterpiece made by Uruguayan sculpture Carlos Páez Vilaró, to be his own home and workshop, and that today became a museum and a hotspot for local gatherings. You also find a large collection of modern and contemporary Latin American art at the Ralli Museum, and will be charmed by the contemporary art museum of the Atchugarry Foundation, with its outdoor sculpture park and a whole new indoor gallery, opened in January 2022. Beyond this, you may find a lot of small but interesting galleries by just walking

through the central streets, around the best-known main avenue, called "la Gorlero" -which houses a celebrated artisanal market and turns into a glamorous catwalk both during the day and at night.

Punta del Este is likewise the most important center of international investment for luxury businesses in Uruguay, therefore it offers a variety of renowned boutiques, luxurious wellness retreats; spa, golf and casino resorts; deluxe apartments to rent, and boutique art hotels. Cuisine doesn't get behind and again, the best thing here is the variety of choice: you can find something for every taste, from local traditional food to elaborated dishes from all around the world¹.

ELECTRIC PLUG AND SOCKET

The residential voltage in Uruguay is 220V/50Hz. You will need a transformer in order to use your portable devices if they do not run on 220V/50Hz. Please make sure you bring one along or purchase one in Montevideo if you need it. Plug types in Uruguay are C and L.

INTERNET SERVICES

Free wireless internet access will be provided in the meeting venue.

BANKING FACILITIES, POSTAL SERVICES AND CURRENCY

The Uruguayan Peso (UYU/\$) is the official currency. Bank notes are available in the following denominations: \$2,000; \$1,000; \$500; \$200; \$100; \$50; \$20 while the coins are denominated \$50, \$10, \$5, \$2 and \$1.

Exchange rates (31 August 2022) 1 USD = 42 Uruguayan pesos; 1 Euro = 48 Uruguayan pesos.

Uruguay imposes no restrictions on the import or export of any local or foreign currency. There is only an obligation to declare sums greater than 10,000 dollars or equivalent.

There are many banks and exchange offices where you can exchange dollars, euros and other currencies. (Banks working hours: 1pm - 5pm, Foreign exchange offices > 9am - 7pm). Some hotels also provide currency exchange service, but it should be noted that these rates are not always favorable.

ATMs can be found all throughout the country. Most places accept credit or debit cards.
