MEDITERRANEAN ACTION PLAN

Meeting of the Bureau of the Contracting Parties
to the Convention for the Protection of the
Mediterranean Sea against Pollution and its
Protocols

Sophia Antipolis, France, 31 October 1997

MAP COLLABORATION WITH NON-GOVERNMENTAL ORGANIZATIONS A SECRETARIAT REVIEW

I. INTRODUCTION

1. It is the general policy of UNEP/MAP to encourage relevant regional and international Non-Governmental Organizations (NGOs) in the Mediterranean region to cooperate with and participate in the work of UNEP/MAP in carrying out environmental protection and sustainable development activities.

Consequently the Rules of Procedure of the Meetings and Conferences of the Contracted Parties were amended as follows to cover this new orientation in 1989:

"The Executive Director shall, with the tacit consent of the Contracting Parties, invite to send representatives to observe any public sitting of any meeting or conference, including the meetings of technical committees, any international non-governmental organization which has direct concern in the protection of the Mediterranean sea against pollution".

(Rule 8).

2. The objectives of MAP's collaboration with NGOs are to advance the general purposes of MAP and to promote the policies, strategies and programmes derived from the Barcelona Convention and its protocols and the decisions of the Contracting Parties in particular by training and mobilizing public awareness of critical environmental and sustainable development issues, creating a favourable climate for environmental actions, public support and monitoring, and promoting the policies of their own organizations in support of UNEP/MAP goals.
3. Moreover, the purposes of such collaboration are to secure expert information, opinion and advice and technical cooperation and assistance from regional and international NGOs and to enable organizations which represent important sections of public opinion in the Mediterranean to express the views of their members. It is worth mentioning that many Mediterranean NGOs have become more organized into networks, thereby gaining more attention within the MAP system.
4. As indicated by Agenda MED 21, achieving sustainable development objectives in the Mediterranean region requires a broad mobilization of public opinion and an effective participation of all the components of society: individuals, groups, organizations, etc. All these groups have a fundamental and vital role to play in this connection.
5. In undertaking this policy, MAP is acting in conformity with the relevant decisions of the Meetings of the Contracting Parties to the Barcelona Convention and the general objectives of MAP Phase II.

II. INSTITUTIONALIZATION OF MAP COLLABORATION WITH NGOs

6. In order to institutionalize MAP's relation with NGOs, the Contracting Parties to the Barcelona Convention, in addition to amending their Rules of Procedure as stated above, approved at their Ninth Ordinary Meeting (Barcelona, 5-8 June 1995) and the Extraordinary Meeting of the Contracting Parties (Montpellier, 1-4 July 1996) a list of 62 Non-Governmental Organizations (NGOs) which would be MAP Partners (see Annex

II to this report). A set of guidelines aimed at improving and strengthening cooperation between MAP and NGOs was also approved (see Annex III to this report). In accordance with these guidelines and in order to facilitate MAP-NGO cooperation, the MEDU library has prepared the Directory of Non-Governmental Organizations-MAP Partners (see document UNEP/BUR/51/Inf.3).

7. The Directory lists all 62 NGO-MAP partners, their Focal Points and other pertinent information, and is divided into two parts:
 - A. A list of Non-Governmental Organizations, MAP Partners in the field of environment and development, which are entitled, in principle, to participate with observer status in MAP meetings; and
 - B. A list of more thematic Non-Governmental Organizations which can be associated with MAP general meetings or specialized activities, as the case may be.
8. In accordance with the guidelines governing MAP's relations with NGOs in the Mediterranean region, MAP and NGOs exchange information related to environmental and sustainable development issues, undertake joint projects in these fields, invite each other to meetings organized by MAP or the NGOs and mobilize public awareness of critical environmental and sustainable development issues.
9. At the level of the Mediterranean region, an important step forward has been undertaken in order to involve NGOs in the work of MAP, namely, the participation of NGO representatives in the Mediterranean Commission on Sustainable Development (MCSD) on an equal footing, which is a significant innovation in MAP relations with NGOs.

III. REVIEW OF MAP COLLABORATION WITH NGOS

10. As stipulated in the guidelines governing MAP's relations with NGOs, "the Coordinating Unit shall keep an updated (public) list of NGOs that have come into contact with it". Moreover, "the Bureau of the Contracting Parties shall review collaboration with NGOs listed in the MAP list of partners, every two years and shall determine the desirability of maintaining or if not, discontinuing official relations".
11. While reviewing a Secretariat proposal on application by new NGOs requesting to be included in the MAP list of partners, the Bureau at its last meeting (Palma de Majorca, 9 May 1997), emphasized the need for a review of the status of all NGOs in relation to MAP. It was stressed that more logical criteria have to be applied to any NGO requesting a relationship with MAP, and a review of the work they have done has to be undertaken before their inclusion in the list. ⁽¹⁾
12. A proposal was made during the Bureau meeting to the effect that the Secretariat should make the necessary contacts with the relevant National Focal Points in order to obtain an opinion and additional information on any relevant NGO before its inclusion in the MAP list. It was stressed, in this regard, that this does not mean in any way that the

(1) DOC: UNEP/BUR/50/4 Report of the Meeting of the Bureau

Secretariat has to seek the prior approval of the relevant National Focal Point for the inclusion of a particular NGO in the MAP list. This exercise remains the prerogative of the meeting of the Contracting Parties.

13. During the same meeting, the MAP Coordinator pointed out that, before proposing the inclusion of any NGO in the list, the Secretariat requests the submission of a dossier by the NGO which contains information on:
- the constitution, terms of reference and rules of procedure of the NGO in question, as well as a list of the Board of Directors (or equivalent);
 - its programme of activities for the coming biennium;
 - progress reports of activities undertaken during the past year;
 - its cooperation with MAP and its commitments to the Mediterranean;
 - its budget.

At the end of the discussion, the meeting requested the Secretariat to undertake a review of the status of the 62 NGOs listed in the MAP list for the Bureau's consideration at its next meeting.

14. On the basis of this decision and in compliance with the guidelines governing MAP's relation with NGOs, the Secretariat has prepared a chart (see Annex I of this report) with a critical review and specific recommendations:

IV. CRITICAL REVIEW

15. It is clear from the attached list of the 62 NGOs MAP partners, that more than 80 % of them originate in the Northern part of the Mediterranean. This is due to the fact that the tradition of joining non-governmental associations in the countries of the South and the East of the Mediterranean is only a recent phenomenon. The small number of these organizations are inadequately involved in the formulation of environmental and sustainable development policies due to deficiencies in their financial and institutional capabilities. Therefore, it is suggested that governments of the Mediterranean region should endeavour to facilitate the involvement of NGOs in tasks for which they are specialized.
16. As most NGOs are not in a strong financial situation, as mentioned above, many of them have not been able to participate actively in MAP meetings and activities relevant to their work. Nevertheless, most of them are on constant contact with MAP's Secretariat. There is a need to upgrade their capabilities, especially those from the South and East of the Mediterranean, in order to assist them to be more involved in MAP work.
17. Even with this deficiency, there is significant evidence that the general participation of NGOs in MAP activities has improved MAP operations and has helped to identify and assess the nature and extent of both environmental and sustainable development issues in the Mediterranean region, in particular by raising public awareness about the Mediterranean environment.

18. Increased openness by the MAP has been a cornerstone in MAP's policy towards NGOs. This is due to the fact that broader dissemination of information is helping to increase popular participation at the local and national levels in the implementation of MAP projects. In this context, MAP makes available to all NGOs its own published documents, responds to their numerous inquiries and involves them in all MAP meetings.
19. In the meantime, it is clear that only two of these organizations have not attended MAP meetings or replied to communications sent to them by the Secretariat, or provided the Secretariat with any information concerning their activities.

Recommendation

The Secretariat suggests the deletion of the following two organizations from the MAP list of partners:

- 1- ICED - International Centre for Environment and Development (Egypt/Switzerland)
 - 2- UNIMED- University of the Mediterranean (Italy).
20. It should also be noted that some other organizations have just joined the MAP list (July 1996). It would not therefore be logical to review their status at this early stage. This would apply to the Israel Society for the Protection of Nature (Israel), Ricerca e Cooperazione (Italy), Sustainability Challenge Foundation (Italy), European Fertilizer Manufacturers Association (Belgium) and International Marine Mammal Association (Canada).

Recommendation

The Secretariat suggests that the review of the above mentioned five organizations should be deferred until the second review to be undertaken after two years

21. Although it appears in the chart that some organizations have not been participating in the various MAP meetings, should not be interpreted as meaning that they are not interested or involved in the subjects of these meetings. The only explanation due to the fact that some of them are not financially capable of covering the travel costs of their representatives, while others are only interested in subjects closely relevant to their work. Moreover, many of them are actively participating in some more specialized meetings conducted by MAP/ Regional Activity Centres (RACs), rather than the general MAP meetings (such as the Ordinary Meetings of the Contracting Parties, Meetings of MAP National Focal Points, etc). To illustrate this point, it should be noted that most NGOs in the MAP list dealing with protected areas, endangered species and biodiversity are in close contact with MAP Centre for Specially Protected Areas (SPA/RAC).
22. In conformity with the decision of the last meeting of the Bureau (Palma de Majorca, 9 May 1997), the Secretariat has received requests from twelve NGOs asking to be included in the MAP list of partners. A dossier has been submitted to the Secretariat by each of these organizations, containing information on their constitutions, terms of reference, programme of activities and their institutional structure.

Recommendation

The Secretariat proposes the inclusion of the following twelve organizations in the MAP list of partners:

NGO Applicants (as at 17 October 1997)

1. Association CRETES. Secrétariat Européen

Status Applicant

Focal Point Dr Patrick Arnal, Director

36 Rue Stacquet
Bruxelles B-1030
Belgique

Telephone (32) 2 2422411
Facsimile (32) 2 2322411
E-mail 100570.1163@compuserve.com

Purpose and objectives The Association CRETES and its private operator TARNIUM (Consultant to the Commission of the European Community) together ensure the coordination of the European Network of Calcarian land Masses. Calcarian land masses contain very large resources of inestimable value: large underground water resources, majestic landscapes characteristic biological diversity, typical architecture, ornamental caves and a very rich archaeological heritage.

2. Association Marocaine pour la Protection de l'Environnement (ASMAPE)

Status: Applicant

Focal Point Mr Bennis Abdelhadi, le Président

P.O. Box 9331
Rabat
Maroc

Telephone (212) 7 774734, 7 774494
Facsimile (212) 7 774667

Purpose and objectives Created in 1987 and based in Rabat, ASMAPE contributes to the better interpretation of environmental policy of Morocco. It disseminates knowledge and increases public awareness of environmental problems by promoting wider citizen-participation in the implementation of environmental policy. Together with other organizations and the industrial and business world, ASMAPE organizes "Information campaigns", scientific workshops, demonstrations on special issues and rehabilitation campaigns on everyday problems. It also publishes an Information bulletin, special publications and various leaflets.

3. Association Monégasque pour la Protection de la Nature (AMPN)

Status: Applicant

Focal Point M Eugène DEBERNARDI, le Président

7 rue de la Colle
"Les Arbousiers"
Monaco 98000
PRINCIPAUTÉ DE MONACO

Telephone (377) 92 056170

Facsimile (377) 92 053245

Purpose and objectives The Association Monégasque pour la Protection de la Nature is the only NGO in Monaco engaged in the protection of nature with particular emphasis in the coastal and maritime areas of that country. Its main programme for 1998 includes the problem of the algae "*Caulerpa taxifolia*" and the conclusion of studies on the culture of corals. AMPN has an annual budget of 250,000 French Francs. However all scientific and technical work is conducted free of charge, donated by the scientists and technicians, members of the Association.

4. Association de Réflexion d'Echange et d'Action pour l'Environnement et le Développement (AREA-ED)

Status: Applicant

Focal Point M Mounir BENCHARIF, Le Président

2 rue Mouloud Zadi
Alger 16006
ALGERIE

Telephone (213) 2 744101

Facsimile (213) 2 744101

E-Mail: area@ist.cerist.dz

Purpose and objectives AREA-ED is a new organization with national scope. In addition to its various activities promoting environmental protection within the framework of sustainable development, AREA-ED acts as the secretariat of REMED (Réseau d'Echange Multidisciplinaire pour l'Environnement et le Développement - Multidisciplinary Exchange Network on Environment and Development) which comprises 700 members in over 40 anchoring points throughout the world.

5. Association Tunisie Méditerranée pour le Développement Durable (ATUMED)

Status: Applicant

Focal Point M Mohamed FAKHFAKH, President

6 Impasse 1 rue Mosbah Jarbou
El Manar II, Tunis 2092
TUNISIE

Telephone (216) 1 886591

Facsimile (216) 1 886488

Purpose and objectives ATUMED is an association founded in June 1996 with the purpose of contributing to the raising of environmental awareness, to socio-economic development on the basis of the rational use of natural resources as well as their protection in order to ensure the sustainable character of progress.

6. Chambers Group for the Development of Greek Isles (EOAEN) ***Epemeleteriakos Omilos Anaptyxis Hellenikon Nision***

Status: Applicant

Focal Point Mr H MIHALAKIS, President of the Chamber of Hios

8 Argentzi Street
Hios 8210
GREECE

Telephone (271) 44330

Facsimile (271) 44332

Purpose and objectives The objectives of the Chamber are to assess the development problems of the Mediterranean Islands, and to promote sustainable development in the Greek Islands by ensuring their long term environmental protection. The Chamber is also aiming at promoting cooperation among islands, particularly within the Mediterranean region and at supporting special measures for their protection at the European level in the framework of the Intergovernmental Conference for the European Treaty, and Euromediterranean cooperation.

7. EcoPeace

Status: Applicant

Focal Point Mr Gidon BROMBERG, Secretary General

2 El-Akhtar Street
P.O. Box 56302
E. Jerusalem 97400
ISRAEL

Telephone (972) 2 6260841/3
Facsimile (972) 2 6260840
E-Mail: ecopeace@netvision.net.ie

Purpose and objectives EcoPeace is a regional forum of environmental NGOs from the Egyptian, Israeli, Jordanian and Palestinian communities, all working to promote ecologically sound development in the Middle East region. It was founded in December 1994, and through the incorporation of national umbrella organizations, it now represents over 200 members. Its main activities include: promoting renewable energy; reviewing various projects around the dead sea; reviewing development projects along the eastern Mediterranean; water conservation and re-use and others.

8. Forum of the Mediterranean for the Environment and Sustainable Development (MED Forum)

Status: Applicant

Focal Point Mr Zohir SEKKAL, President

EcoMediterrania, 643, 3 Gran Via de les Corts Catalanes
Barcelona 08010
SPAIN

Telephone (34) 3 412 5599
Facsimile (34) 3 412 4622
E-Mail MED Forum@pangea.org

Purpose and objectives MED Forum is a network of environmental and ecological organizations in the Mediterranean dedicated to the protection and conservation of the environment. The aim of the network is to promote the application of a sustainable development model which will allow integrated and jointly liable management of the Mediterranean Sea and its coast. Established in 21 countries with over 50 member NGOs, MED Forum is now consolidated as the largest NGO network in the Mediterranean basin.

9. Hellenic Institute of Environment, Desalination, Water re-use and Preservation (EIPA)

Status: Applicant

Focal Point Mr Nick BAFITIS, President

25 Trapezountos
Koridallos 18121
GREECE

Telephone (30) 1 5615565

(30) 1 5451701

P.O. Box 83617
Tripoli
LIBYA

Telephone (218) 21 31832-4

Facsimile (218) 21 31831

Purpose and objectives The International Energy Foundation is a non-profit organization which was founded in Tripoli in 1989. Its purpose and objectives are to facilitate the transfer of research and technology in all areas of energy with special emphasis on developing countries. It holds an average of 10 scientific functions per year, including workshops, seminars and international conferences such as the Mediterranean Petroleum Conference and Exhibition. Membership is open to all professional and educational institutions, to industry and to energy-related government bodies and, at present, it numbers over 1000 members world wide. IEF is funded through grants and contributions.

11. Mouvement Ecologique Algérien (MEA) Algerian Ecological Movement (AEM)

Status: Applicant

Focal Point Prof. Zohir SEKKAL, le Président

17 rue Shakespeare
Alger 16000
ALGERIE

Facsimile (213) 2 604650

Purpose and objectives Created in 1989, the Algerian Ecological Movement works closely with many Intergovernmental Organizations such as UNDP, UNEP, IUCN, WWF and others. It is a member of the Cairo based Arab Environment and Development Network and the World Nature Alliance. AEM objectives include protection of the environment, ecosystems management, sustainable development and sound water as well as waste management. It is also committed to involving women and youth in sustainable development.

12. Observatory for Planning the Sustainable Development and the Organization of the Territory - University of Salerno (OPSAT)

Status: Applicant

Focal Point Prof Francesco CITARELLA, Scientific Coordinator

Università degli Studi di Salerno, Via Ponte Don Melillo
Fisciano (sa) 84084
ITALY

Telephone (39) 89 962296

Facsimile (39) 89 962138

Purpose and objectives OPSAT is based at the University of Salerno. Its main objective is the support of the scientific community through the acquisition of new knowledge on several core themes such as employment, competitiveness and territorial models of development in a context of rapid change both international and technological. It attempts to expound the results of investigation and analysis into information for consultation for administrators, decision-makers and representatives of industry.

Purpose and objectives

ANNEX III

MAP COOPERATION WITH NON-GOVERNMENTAL ORGANIZATIONS¹

1. INTRODUCTION

- 1.1 It is the general policy of UNEP/MAP to encourage relevant international, regional and national Non-Governmental Organizations (NGOs) in the Mediterranean region to cooperate with and participate in the work of UNEP/MAP in carrying out environmental protection and sustainable development activities.

The Rules of Procedure of MAP were amended by the Contracting Parties in 1989 to cover this policy:

"The Executive Director shall, with the tacit consent of the Contracting Parties, invite to send representatives to observe any public sitting of any meeting or conference, including the meetings of technical committees, any international non-governmental organization which has direct concern in the protection of the Mediterranean Sea Against Pollution".
(Rule 8).

- 1.2 The objectives of MAP's collaboration with NGOs are to advance the general purposes of MAP and to promote the policies, strategies and programmes derived from the Barcelona Convention and its related protocols and the decisions of the Contracting Parties and in particular, in training and mobilising public attention to critical environmental issues, in creating a favourable climate for environmental actions, public support and monitoring, and in promoting the policies of their own organizations in support of UNEP's goals.

Moreover, the purposes of such collaboration are to secure expert information and advice and technical cooperation and assistance from international NGOs and to enable organizations which represent important sections of public opinion in the Mediterranean to express the views of their members.

- 1.3 MAP shall, in relation to NGOs, act in conformity with the various decisions of the Meetings of the Contracting Parties to the Barcelona Convention.

2. EXCHANGE OF INFORMATION

- 2.1 Any Non-Governmental Organization (NGO) which is concerned primarily with environmental issues and sustainable development in the Mediterranean or a part of the Mediterranean area and is free from concerns of commercial or profit making nature may exchange information with MAP and receive information from it.

¹

As approved by the Contracting Parties to the Barcelona Convention
(Barcelona, 5-8 June 1995)

2.2 This exchange is carried out on the basis of correspondence sent by the NGO in which it makes clear:

- the relevance of its aims and activities to the MAP goals stipulated in the Barcelona Convention and its protocols;
- the existence of a Constitution or terms of reference approved by an Assembly and a programme of activities, a Board of Directors (or equivalent) and a Bureau or a Committee elected at regular intervals;
- the establishment of its headquarters or one of its offices in a Mediterranean country (since at least two years);
- the indication of the assistance (activities, training programme, raising of public awareness, scientific support, etc.,) that the NGO can provide in furtherance of MAP's policies.

2.3 Any NGO which has thus become a MAP partner shall receive free of charge:

- MEDWAVES; and
- public documents prepared by MAP on such activities as are likely to be of interest to the Organization.

2.4 This status shall not entitle the Organization to receive any financial support. Furthermore, it shall not automatically entitle the organization to attend either general or specialised meetings.

3. POSSIBILITY FOR NGOS TO ATTEND MAP MEETINGS

3.1 In order for NGOs to be represented and more importantly to contribute to the dialogue within the framework of MAP concerning its goals, aims and programmes, the Coordinating Unit may invite them to attend general and/or more specialised meetings in accordance with Rule 8 of the Rules of Procedure of the Meetings of the Contracting Parties. They shall receive the documents relevant to their respective field of activity.

3.2. The Coordinating Unit shall keep an updated (public) list of NGOs that have come into contact with it. Prior to the Ordinary Meetings of the Contracting Parties this list shall be circulated, along with the invitation letters, to the Contracting Parties for their clearance, in accordance with Rule 8 of the Rules of Procedure of MAP.

3.3 The Bureau of the Contracting Parties shall review collaboration with NGOs listed on the MAP List, every two years and shall determine the desirability of maintaining or if not, discontinuing official relations.

3.4 Priority shall be given, for general meetings to:

- NGOs of international scope and/or regional scope and multidisciplinary interest recognised in their statutes, multinational representation in their governing boards

as well as their activities, especially those contributing to Mediterranean cooperation, be concerned with matters covering a substantial portion of MAP's field of activity.

The dossier to be submitted by an NGO shall contain information illustrating the above mentioned points and especially:

- a. the NGOs' s Constitution or terms of reference and its rules of procedure, as well as a list of the Board of Directors (or equivalent) and Bureau;
 - b. its programme of activities for the coming biennium;
 - c. the report of activities of years past and most especially of the previous year which shall shed light on successes and difficulties;
 - d. the organization's own proposals for improving Mediterranean cooperation and the commitments it intends to undertake in order to contribute to such cooperation;
 - e. the budget for the current year and for the coming year.
- a rotating representation (e.g. every two years) of some national organizations which are equitably selected among the North, the South, the East and the West of the Mediterranean Region, if possible through agreement among such organizations;

3.5 For specialised meetings, priority shall be given to organizations covering more than one country or the whole Mediterranean area if possible. They shall be invited to specialised meetings on the basis of their particular interest. They shall be concerned with matters covering a portion of MAP' s field of activity.

3.6 No organization shall take advantage of its presence at a given meeting to express political, philosophical or religious view. It shall respect the confidentiality of information presented, if the Contracting Parties so request.

3.7 When a Contracting Party organises or is host to a MAP meeting, it shall be given authority to authorise the exceptional participation of a reasonable number of national or sub-regional organizations for the general meetings. The list of such organizations shall be sent in writing at least one month before the meeting to the Coordinating Unit or to the relevant Regional Activities Centre (RAC).

3.8 Regional Activities Centres (RACs) shall have a certain margin of manoeuvre, in respect of the meetings they organise, to complete the list with NGOs interested in the problems to be discussed or in those dealt with specifically by the Regional Activity Centre.

4. RESPONSIBILITIES OF INVITED NGOs IN THEIR RELATIONS WITH MAP

4.1 NGOs shall cooperate with MAP for the furtherance of the objectives of the Barcelona Convention and its related protocols and shall be responsible for implementing the mutually agreed programme of collaboration.

- 4.2 NGOs shall utilise the opportunities available to them through their normal work to disseminate information on MAP policies and programmes.
- 4.3 NGOs shall collaborate individually or collectively in the implementation of MAP programmes.
- 4.4 NGOs shall send to MAP their reports and publications on an exchange basis.
- 4.5 NGOs shall keep MAP informed of changes in their structure and/or interested public, as well as of important changes in their secretariat.
