

# TIME TO ACT : Doubling investments in nature by 2025

If the world wants to halt biodiversity loss, limit climate change to **below 1.5 C** and achieve land degradation neutrality by 2030, **investments in nature-based solutions must be DOUBLED.**

**USD 154 billion**  
invested in NbS in 2022

## Annual investments needed

Less than **1/2** of the investment needed by 2025.

A **1/3** of investment needed by 2030.

Private capital must significantly increase investment.

17%

Private Finance

83%

Public Finance

## Nature-negative flows from public sources

Estimated at USD **500 billion** to **1 trillion** per year.

**x3 to x7** larger than investments into NbS.
