

## PPR 2022

### Annex I: Subprogramme Indicator Performance

Indicator	Unit of Measure	December 2021 Baseline	December 2022 Target Cumulative	December 2022 Attained Cumulative	December 2022 % progress	December 2023 Target Cumulative
<b>1- Climate Action Sub Programme</b>						
(i) Number of national, subnational and private sector actors that adopt climate change mitigation and/or adaptation and disaster risk reduction strategies and policies with UNEP support.	Number of national, subnational and private sector actors that adopt climate change mitigation and/or adaptation and disaster risk reduction strategies and policies with UNEP support.	76	91	98	117%	131
(ii) Amounts provided and mobilized in \$ per year in relation to the continued existing collective mobilization goal of the \$100 billion commitment through to 2025 with UNEP support. <sup>1</sup>	(a) United States dollars per year invested by countries or institutions for climate action.	505	555	564.64	119%	705
	(b) United States dollars of decarbonized assets.	201	251	396.68	337%	401
(iii) Number of national, subnational and private sector actors reporting under the enhanced transparency arrangements of the Paris Agreement with UNEP support.	Number of reports produced by national, subnational and private sector actors for the United Nations Framework Convention on Climate Change or in accordance with the guidelines of the Framework Convention on Climate Change or another multilateral environmental agreement.	35	55	61	130%	95
<b>2- Nature Action Sub Programme</b>						
(i) Number of national or subnational entities that, with UNEP support, adopt integrated approaches to address environmental and social issues and/or tools for valuing, monitoring and sustainably managing biodiversity. <sup>2</sup>	(a) Number of national or subnational entities that adopt or adapt economic, regulatory or decision-support tools for valuing, monitoring and sustainably managing biodiversity.  (b) Number of national and subnational entities that adopt integrated approaches to addressing environmental and social issues, including health.	0 <sup>3</sup>	8	43	538%	38

<sup>1</sup> For Climate Action indicator (ii), units of measure (a) and (b) have distinct baselines for 2021 and distinct targets for 2022. Consequently, for computational purposes, indicator (ii) is counted as two separated indicators - given that what is being measured by each unit of measure is distinct from the other - and each has its own baseline and target.

<sup>2</sup> For Nature Action indicator (i), units of measure (a) and (b) have a combined 2021 baseline of 0 and a combined 2022 target of 8. Consequently, units of measure (a) and (b) are counted as a single indicator. For further information on the breakdown between the attained cumulative for units of measure (a) and (b) please contact the Nature Action Sub-Programme.

<sup>3</sup> Baseline revised to 0 based on confirmation from Nature Action Sub Programme that the indicated baseline of 70 in the PoW was inaccurately set.

Indicator	Unit of Measure	December 2021 Baseline	December 2022 Target Cumulative	December 2022 Attained Cumulative	December 2022 % progress	December 2023 Target Cumulative
(ii) Number of financial, public- and private sector entities whose financial decisions and risk management frameworks take biodiversity and ecosystem services into consideration, and the increase in financial flows towards ecosystem management as a result of UNEP support. <sup>4</sup>	(a1) Number of financial institutions that have a set of biodiversity targets for their impact.					
	(a2) Number of public- and private-sector entities that consider biodiversity and ecosystem services in their financial decision-making and risk management frameworks.	0	19	236	1242%	61
	(b1) Increase in inclusive wealth of countries, and in particular natural capital, as a result of public and private investment in nature.	0 <sup>5</sup>	0	2 million	N/A	200 million
	(b2) United States dollars unlocked for investment in support of sustainable ecosystem management and/or restoration.					
(iii) Number of countries and national, regional and subnational authorities and entities that incorporate, with UNEP support, biodiversity and ecosystem-based approaches into development and sectoral plans, policies and processes for the sustainable management and/or restoration of terrestrial, freshwater and marine areas. <sup>6</sup>	(a) Number of countries, national, regional and subnational authorities and United Nations agencies, funds and programmes (bilateral, multilateral, global, regional and local) that use common approaches to mainstreaming biodiversity in their development and sectoral plans, policies and processes.					
	(b) Number of countries and national, regional and subnational authorities that use ecosystem-based approaches to sustainably manage terrestrial, freshwater and marine areas, including those making commitments in support of ecosystem restoration.	0	40	62	155%	137
	(c) Number of countries and national, regional and subnational authorities that use ecosystem-based					

<sup>4</sup> For Nature Action indicator (ii), units of measure (a1) and (a2) have a combined 2021 baseline of 0 and a combined 2022 target of 19. Consequently, units of measure (a1) and (a2) are counted as a single indicator. Similarly, units of measure (b1) and (b2) have a combined 2021 baseline of 0 and a combined 2022 target of 0. Consequently, units of measure b1 and b2 are counted as a single indicator. Consequently, for computational purposes, indicator (ii) is counted as two separated indicators: 1) (a1) + (a2) combined; and 2) (b1) + (b2) combined. For further information on the breakdown between the attained cumulative for units of measure (a1), (a2), (b1) and (b2), please contact the Nature Action Sub-Programme.

<sup>5</sup> Baseline revised to 0 based on confirmation from Nature Action Sub Programme that the indicated baseline of 224 in the PoW was inaccurately set.

<sup>6</sup> For Nature Action indicator (iii), units of measure (a), (b) and (c) have a combined 2021 baseline of 0 and a combined 2022 target of 40. Consequently, units of measure (a), (b) and (c) are counted as a single indicator. For further information on the breakdown between the attained cumulative for units of measure (a), (b) and (c) please contact the Nature Action Sub-Programme.

Indicator	Unit of Measure	December 2021 Baseline	December 2022 Target Cumulative	December 2022 Attained Cumulative	December 2022 % progress	December 2023 Target Cumulative
	approaches to disaster risk reduction interventions for enhanced resilience.					
(iv) Increase in territory of land- and seascapes that is under improved ecosystem conservation and restoration.	Number of hectares of terrestrial and marine area reported as being under improved management.	0	0	711,970	N/A	144,000
<b>3- Chemicals and Pollutions Action Sub Programme</b>						
(i) Number of Governments that, with UNEP support, are developing or implementing policies, strategies, legislation or action plans that promote sound chemicals and waste management and/or the implementation of multilateral environmental agreements and the existing framework on chemicals and waste.	Number of Governments developing or implementing relevant policies, strategies, legislation or action plans with UNEP support.	169	224	206	67%	279
(ii) Number of Governments developing or implementing policies, strategies and mechanisms to prevent or reduce waste and ensure environmentally sound waste treatment or disposal, including in the context of disaster or conflict-related environmental emergencies, with UNEP support.	Number of Governments developing or implementing relevant policies, strategies and mechanisms, including in response to humanitarian and environmental emergencies, with UNEP support.	23	28	29	120%	35
(iii) Number of policy, regulatory, financial and technical measures developed with UNEP support to reduce pollution in air, water, soil and the ocean.	Number of air pollution, soil pollution and freshwater and marine pollution reduction measures developed with UNEP support, including gender and social measures.	64	78	77	93%	111
(iv) Reduction in releases of pollutants to the environment achieved with UNEP support.	Fewer tons of harmful pollutants and waste, including those covered under multilateral environmental agreements.	0	1200	1245	104%	2300
<b>4- Science-Policy Sub Programme</b>						
(i) Number of countries and national, regional and subnational authorities that, as a result of UNEP support, have strengthened capacity to develop sound environmental data, statistics, scientific assessments and early warning systems	Number of countries and national, regional and subnational authorities (bilateral, multilateral, global, regional and local) that have developed sound environmental data, statistics, scientific assessment and early warning systems with UNEP support.	65	75	76	110%	90
(ii) Number of relevant global, regional and national forums, institutions and Governments using data, statistics, scientific assessments and early warning and foresight systems provided by UNEP for catalysing policymaking and action.	Number of countries and regional, national and subnational authorities (bilateral, multilateral, global, regional and local) that use data, statistics, scientific assessments and early warning and foresight systems made available through UNEP platforms.	118	128	128	100%	138

Indicator	Unit of Measure	December 2021 Baseline	December 2022 Target Cumulative	December 2022 Attained Cumulative	December 2022 % progress	December 2023 Target Cumulative
(iii) Number of United Nations agencies and multilateral environmental agreement secretariats using data and statistics on environmental trends and assessments identified through UNEP to catalyse policy recommendations.	Number of United Nations agencies and multilateral environmental agreement secretariats using data and statistics on environmental trends and assessments identified through UNEP to catalyse policy recommendations.	0	5	4	80%	15
(iv) Number of United Nations country teams using data and statistics on environmental trends and assessments identified through UNEP to catalyse policy recommendations.	Number of United Nations country teams using data and statistics on environmental trends and assessments identified through UNEP to catalyse policy recommendations.	15	45	21	20%	105
<b>5- Environmental Governance Sub Programme</b>						
(i) Number of countries supported by UNEP under the Montevideo Programme in developing and implementing environmental rule of law and related technical and institutional capacities to address internationally agreed environmental goals.	Number of countries (including vulnerable disaster and conflict affected Member States) supported by UNEP to strengthen environmental institutions.	34	70	48	39%	98
(ii) Number of international legal agreements or instruments advanced or developed with UNEP support to address emerging or internationally agreed environmental goals.	Number of international legal agreements and instruments advanced or developed with UNEP support to address emerging or internationally agreed environmental goals.	58	59	60	200%	61
(iii) Number of plans, approaches, strategies, policies, action plans or budgeting processes of entities at the national, regional and global levels that include environmental goals as a result of UNEP support.	Number of plans, approaches, strategies, policies, action plans and budgeting processes of entities at the national, regional and global levels that include environmental goals as a result of UNEP support.	164	199	206	120%	229
(iv) Number of entities at the national, regional or global levels that UNEP has supported in developing integrated approaches and tools for enhanced coordination, cooperation and synergies for the coherent implementation of MEAs.	Number of entities developing integrated approaches and tools for enhanced coordination, cooperation and synergies for the coherent implementation of multilateral environmental agreements, with UNEP support.	22	37	31	60%	62
<b>6- Finance and Economic Transformations Sub Programme</b>						
(i) Number of economic, finance, industry and trade policies, practices, partnerships and initiatives put in place or implemented to enable just transitions.	Number of economic, finance, industry and trade policies, practices, partnerships and initiatives.	104	124	125	105%	144
(ii) Number of business alliances, principles, practices, standards or frameworks established or adopted with UNEP support to enhance environmental sustainability.	Number of relevant business alliances, principles, practices, standards and frameworks (disaggregated by industry sector and size).	1208	1223	1224	107%	1238

Indicator	Unit of Measure	December 2021 Baseline	December 2022 Target Cumulative	December 2022 Attained Cumulative	December 2022 % progress	December 2023 Target Cumulative
(iii) Number of consumer information tools and measures, educational approaches and advocacy and awareness-raising events and products that inform decision-making, choices and changes in behaviour towards enhanced environmental sustainability, developed with UNEP support.	Number of relevant consumer information tools, measures, educational approaches and advocacy and awareness-raising events and products that inform decision-making, choices and changes in behaviour.	261	291	304	143%	311
<b>7- Digital Transformations Sub Programme</b>						
(i) Number of digital platforms deployed as a result of UNEP support for automatically monitoring global progress against climate, nature and chemicals and pollution targets to support transparency, predictive analytics and risk identification.	Number of relevant digital platforms deployed.	0	4	9	225%	6
(ii) Number of business alliances, partnerships and networks leveraging environmental data and digital transformation approaches to incentivize environmental sustainability and a circular economy within financial markets.	Number of relevant business alliances, partnerships and networks.	0	3	10	333%	5
(iii) Number of digital applications and engagement platforms created with UNEP support to support electronic governance and enhance public participation in environmental monitoring, consensus-building, decision-making and digital transformation linked to climate, nature and chemicals and pollution actions, including the reduction of environmental digital technology inequalities in impact chains, consumer behaviours and policymaking.	Number of relevant digital applications and engagement platforms.	0	4	8	200%	6
