To whom it may concern

**Subject : Partner application for Lead Paint Alliance**

The OCCUPATIONAL HEALTH UNIT at the Local Health Unit of Potenza (Italy) (U.O.C. MEDICINA DEL LAVORO E SICUREZZA DEGLI AMBIENTI DI LAVORO della Azienda Sanitaria Locale di Potenza) endorses the goals and objectives of the Lead Paint Alliance and wishes to be considered as its partner.

As a regional expression of the national health system we don't need to attach the WHO Tobacco/Arms Disclosure Statement and the adherence at the Framework for Engagement with Non-State Actors (FENSA).

As a group of occupational physicians and occupational safety technicians we provide prevention and control about occupational injuries and occupational diseases around the territory of the Province of Potenza.

The contributions that we would like to make to the work of the Lead Paint Alliance *are* described below:

- *Initiate activities to raise awareness of the health impacts of exposure to lead in paint and to other occupational chemicals (by public events, Italian language translations, website publications, etc.);*
- *Serve as a government, workers and employees mentor to provide expertise on health impacts and on prevention of exposure to lead paint and to other occupational chemicals;*
- *Provide other expertise or activities that can help reduce exposure to lead in paint and to other related occupational chemicals.*

Reference for this activities will be the Dr. Lucio Fellone ([lucio.fellone@gmail.com/](mailto:lucio.fellone@gmail.com)  
[lucio.fellone@aspbasilicata.it](mailto:lucio.fellone@aspbasilicata.it) ).

We understand that this letter of intent is not legally binding and that a copy of this letter of commitment and the name of OCCUPATIONAL HEALTH UNIT at the Local Health Unit of Potenza will be publicly listed on the Lead Paint Alliance website.

Yours sincerely,

Occupational Physician  
Occupational Health Unit  
*Dr. Lucio Fellone*

The Director of the  
Occupational Health Unit  
*Dr. Biagio Schettino*
