Agenda Item 4 (c)

NGO Major group Intervention

Thank you Mr Chair

My name is Djatougbe Aziaka, cofacilitor of NGO MAJOR GROUP

For the preparation of UNEA6,

We call for more representation of Major Groups and stakeholders in UNEA6 and other relevant processes including the strengthening of regional participation.

We call for stronger Engagement of the Major Groups and stakeholders in the decision-making and implementation of Resolutions, MEAs, meaningful participation of Major Groups and stakeholders in all processes. Civic space must be free.

It is essential that UNEA-6 includes a strong focus on food systems.

There is no pathway to adequately addressing the triple planetary crises that does not involve the environmental dimension of the food system and multilateral action to drive this forward is both necessary and directly relevant to the theme of UNEA-6.

We fully support the proposition of Portugal about MGs and stakeholders engagement.

Also we support the position of Women Major Group regarding geo-engineering.

Thank you.
