Athens, Greece, 13-16 October 2015

**Agenda item 5: Specific Matters for Consideration and Action by the Meeting**

**Draft Decision: List of Specially Protected Areas of Mediterranean Importance (SPAMI List)**

For environmental and economic reasons, this document is printed in a limited number. Delegates are kindly requested to bring their copies to meetings and not to request additional copies.

### **Note by the Secretariat**

The SPAMI List was established in 2001 (Monaco Declaration) in order to promote cooperation in the management and conservation of natural areas, as well as in the protection of threatened species and their habitats. Furthermore, the areas included in the SPAMI List are intended to have a value of example and model for the protection of the natural heritage of the region. To date, 33 areas, including the Pelagos Sanctuary, are included in the SPAMI List.

Decision IG.17/12 of COP 15 (Almeria, Spain, January 2008), adopted the *Procedure for the revision of the areas included in the List of Specially Protected Areas of Mediterranean Importance (SPAMI List)* and requested SPA/RAC to implement the adopted Procedure.

The 12<sup>th</sup> Meeting of Focal Points of SPA/RAC (Athens, Greece, May 2015), based on the experience gained from the SPAMI evaluations undertaken so far and given the urgency of the matter, agreed to elaborate a revised Format with a view to submitting it for adoption by COP 19. The meeting invited SPA/RAC to prepare a first draft and take advantage of the SPAMI Conference (Tunis, Tunisia, June 2015) in order to consult with the attending Focal Points, before circulating the revised Ordinary Review Format for further comments and finalization in time for submission to the forthcoming meeting of MAP Focal Points (mid-October 2015). In this context, SPA/RAC prepared a first draft and circulated it to all the Focal Points for SPAs and relevant partner organisations. The comments and suggestions received were integrated in the draft Format presented hereinafter.

Following the running, during July 2015, of the e-mail consultation with the Focal Points of SPA/RAC and relevant partner organizations, it was decided to present the “Revised Format for the Periodic Review of SPAMIs” to COP 19 as an information document (UNEP(DEPI)/MED WG.421/Inf.27) and not in view of its adoption.

Furthermore, the present version is intended to be tested, further developed and improved during the 2016-2017 biennium, especially in view of adapting it to the case of transboundary SPAMIs or SPAMIs covering ANBJ zones. The final version of the format will be then presented for adoption by COP 20 in 2017.

SPA/RAC received a proposal from Albania concerning the inclusion of the Karaburun-Sazan National Marine Park in the SPAMI List. The proposal was elaborated with the support of SPA/RAC (the MAVA-funded MedKeyHabitats project). The candidate SPAMI Presentation Report was submitted to the 12<sup>th</sup> Meeting of Focal Points of SPA/RAC (Athens, Greece, May 2015) who evaluated the conformity of the proposed site with the criteria set out in the SPA/BD Protocol and in its Annex I (Common criteria for the choice of protected marine and coastal areas that could be included in the SPAMI List). The Meeting agreed to submit the Albanian proposal to COP 19 for inclusion in the SPAMI List. The executive summary of the Presentation Report of the Karaburun-Sazan National Marine Park appears as Annex XIII to the SPA/RAC Focal Points meeting Report (UNEP(DEPI)/MED WG.421/Inf.25).

This decision contributes to the implementation of Key Outputs 3.1.1 and 3.1.2 but also 3.4.1 and 3.5.2 of the proposed 2016-2017 Programme of Work.

**Draft Decision IG.22/14**
